## Preface

Central Institute of Fisheries Education (CIFE), originally established in 1961, as an in-service training centre to impart proficient training and education to fisheries professionals, was conferred Deemed University status in 1989 by the University Grants Commission (UGC), after its hard work for almost 20 years. Since then CIFE has been playing significant role in generation of competent and professional human resources in all spheres of fisheries. Besides India, CIFE has been imparting training and education to the officials and students from Afro-Asian Countries, Bangladesh and Sri Lanka.

It is a proud moment to share that the CIFE alumni are now spreading across the world and excelling in respective areas of academics and industries. A few distinguished alumni have occupied prominent positions in international and national organisations while some have become hugely successful entrepreneurs creating more wealth and employment. This has shown a remarkable growth of fisheries sector in terms of increased production, productivity and volume of aqua-business.

CIFE Alumni Association (CIFEAA) is actively developing its relationships with its alumni across the world and requires active participation of its members thereby contributing towards building the reputation of CIFE. I wish you continued success in your chosen careers and hope that you will keep in touch with us and support our development in years to come. I specially acknowledge the contribution of all the resource persons and support from scientists, staff and students of CIFE and sincerely appreciate the efforts of Dr. Mukunda Goswami, Principal Scientist and Dr. Ashutosh D Deo, Sr. Scientist of this institute in bringing out this publication and hope this will strengthen the linkage among CIFE Alumni.
